Where to go for studies

Students and others have reported back – and we only concur - that it has not been easy to select where to go for studies from just the vast and growing availability of programs and teachers. We are including this page to rather more extensively position our school and to help you establish if or to what extend we can be of service to your further learning. We will here seize opportunity to tell you a bit more about our approach, our didactics. May we therefore first direct you to some testimonials, suggest you look up [Table of Contents](#) to our manuals (and some [sample pages](#)) on our website and then refer back here for overview on what to expect besides profound technique.

Inner drive and down to earth profundity

Heluo has been pre-occupied with matters of existential magnitude and destiny of people and our planet since early childhood. Not only does he feel he owes everything at all to Oriental Metaphysics, he has been teaching from great inner drive since 1979, from the conviction also that students should be taught 'without further delay'. From his extended studies into Oriental Metaphysics since 1973 he was gradually able to develop a unique East-West vision on human behavior, which – together with new ways of looking into basic tools such as Taiji, Hetu, Xiantian (Former Heaven) and Houtian (Later Heaven) as well as Luoshu applications - will be transmitted during class and which will color what you know on Oriental Metaphysics a great deal. Heluo has been a long time consultant and counselor – specialized in human conduct and behavior – having intensely and effectively coached people where others had left off. Heluo is being appreciated for his inner drive and his ability to take students on an experience through time, space and destiny [[about Heluo](#)].

Didactics

You would like to obtain firm training, rather than sitting in a lecture. Heluo has been a certified teacher with accreditation since 1980. Since we started offering our current Qi studies in 1997, we have been conducting a professional practitioner program, rather than just a course. Heluo designed classes around his extensive international experience in the world of Oriental Metaphysics. It has been for a reason that also foreign students and our colleagues enjoy coming to class. Heluo is known for his eagerness to give out a tremendous amount of class material in the shortest amount of time, not wasting precious class time on nonsensical issues. Transmission of technique **without further delay** and **no red herrings** (decoy) are at the basic standards of our build up and personal style. Thus, the vast and carefully selected curriculum particularly setting out to enable you to independently apply advanced level techniques in just one 4-day class, either for yourself or in your work with others. We obtain this by our academic approach during live class and a vast body of yet additional materials in our extensive workbooks for you to then take home (your manuals 250-680 pages, all self produced, fully authentic and constantly improved, while workbooks are specifically designed also to accompany you many years after termination of class).

Our articles and class curriculum

You may have enjoyed extensive articles in our series "Explorations with Heluo" since 1999, which articles are in fact integral chapters from our class manuals. At the same time, nothing beats just formal training, so that we'll reserve yet special experience into cosmology as you join us in class. You'll be studying technique, application and views on cosmology and human behavior much beyond what one would expect from comparable programs. You will appreciate a most revealing and life changing experience into time, space and fate.

“Others give us fish, you gave us the fishing rod”

We regarded this feedback humbling and one of the most cherished, the moreso because it was voiced by one of our esteemed colleagues who came to join class after having been fully certified elsewhere.

Advanced students and already well established practitioners in Feng Shui, Four Pillars of Destiny or Nine Star Ki find classes profound and well worth the trouble. We make sure also, that already practising professional consultants, therapists or teachers of other disciplines will be able to add materials offered in class to their existing curriculum to the immediate benefit of their clients.

Just sit back and enjoy

Just sit back and leave the rest to us. You can be sure our intensive classes cover solid and authentic materials only and curriculum offered is historically, philosophically and technically correct.

One Module Only

Unique to our build up is that we have been successfully sustaining a One Module Only format of training since 1997, which means that you will be returning home with a vast body of knowledge without being asked to return to class for several modules to – only gradually or hardly at all - gather the 'remaining techniques'. Nothing outside autonomy of the student and his relation to Qi studies should be central in any curriculum.

Accommodating our foreign students

We cherish that Heluo's classes have been joined by foreign students, our colleagues and consultants - both from within our Qi studies and other disciplines.

Going beyond just the systems

Besides the solid and theoretically sound technique that you may expect to come with any profiled professional practitioner program to ensure proficiency and true competitiveness in Chinese Feng Shui, Four Pillars of Destiny and Nine Star Ki, it is good to here discuss some of the special dynamics happening in Heluo's live classes and that you will find further layed out in your extensive workbooks. Heluo has been offering a bird's eye view over oriental cosmology and he holds a unique and enthralling vision on Human Qi and planetary destination, teaching beyond controversy, so-called confusing topics, paradox, decoy (red herring) or myth so widely used in metaphysics.

A word on metaphysical and didactical relevance of your study

Proficiency means so much more than just skilled technique as it means you must be able to assess any time-action-space situation and take decisions on your own, without at all relying on a master in any assignment. Therefore you need build up sound judgement, discriminative abilities, know correct from false and work from a solid and universal vision concerning metaphysics and human existence. Without this, you would be merely applying empty technique. We'll have you return home with a skill, rather than just technique.

We have been on a mission. You'll have the crux of each technique fully explained and rationalized, which will prevent you from just having to copy and squarely apply what you 'were told' in class.

'One of the primary measures to judge a teacher by, is his student' is what we had learned already in our time as a martial arts dojo, this then always resonating to the back of our mind, and besides this we will treasure your time and energy as we strongly believe that any of the Qi studies should have been shown to us from early childhood onward. This means, there are no secrets and there is no time to be wasted and all will be shared transparently and from academic approach, so that you may perform and reason from qualified platform, helping you to withstand any controversy or misconception and just reap from competence.

Revealing decoy

All in oriental metaphysics be saturated with decoy. There is simply no way around it. Then at least - and rather than be sent astray - you would wish to be shown how to distinguish between decoy and actual teaching. In order to get you into the saddle firmly, you will be addressed as a full fledged professional from minute one and we will be handsomely discussing and tackling wide spread controversies and known misconceptions, we will break open one red herring after the other (decoys or smoke screens so massively used in Qi studies) and we take greatest pleasure in revealing the actual teaching behind common myths. A myth is just a double to perhaps a diagram and once you know the technique behind the myth, you can do without the myth. We will, for example, unlock the myth behind Fuxi and we will pleasantly surprise you by showing you exactly *what* (rather than whom) Fuxi pertains to. We teach from Chinese classics and you will feel the atmosphere of the ancient masters, whom will be soon re-installed back in their rightful capacity as astronomers, physicists and mathematicians, rather than the long-haired hippies they may be often taken for. You will have the technique and the arguments.

Your practise in full swing

Again, there is a difference between a lecturer and a teacher, a participant and a student. You want teaching, not some lecture dressed up as a real class or to be used as bait and be told that you must not ask and just apply what you have been told, only to be then asked to return to class another time in order to gather more of the teaching. We make sure that, even if you have been a fully equipped professional, you'll have strong new tools and insights into what you already knew and practised. From his 35 years of ongoing studies and research, Heluo was able to develop a complete new and practical vision on Qi studies, human existence, physiologically induced behavior and planetary destination that will no less than astound you, but will soon become your second skin in applying any of the Qi studies, be that for yourself or professionally to the benefit of others.

Rich curriculum

Besides transferring vast amounts of sound technique in the systems of study, we feel strong about letting our class take you on an exhilarating adventure into time, space and destiny. We will cover:

Heliocentric cradle of Wu Xing Five Transformations – more profound definitions into heaven, man and earth – breaking one after the other myth and prevalent analogies while replacing them by the original teaching. Why is the human heart not exactly in between the shoulders and why is the heart at an angle of declination. True (multifaceted) face of 5 Yellow. Dynamic truth behind Four Pillars of Destiny Ba Zi and Nine Star Ki to considerably transform your ability to do fate readings and perform on account of divination. How to become a diviner rather than just an expert. One Personality versus True Shen (behavioral parasitism). Dietary principles linked to the Five Elements. Qi heals Qi, origin of the human form. What exactly instigates human character, temperament, emotions, behavior. Looking into 'organs produce emotions' and 'whatever lies inside must externalize'. How to commit energetic acupuncture without needles just through social transaction so as to alter fate and destiny. Heliocentric and geocentric studies into earth changes, 2012 and magnetic pole reversal. Linking Precession Cycle to Luo Pan, Luo Shu, Xiantian Gua. Recognize and overcome brain-spine behavior. Japanese face diagnosis, body language, diagnosing fate and destiny and how to establish destiny change. Blood and Qi, food energetics. How to 'survive, manifest and achieve' within the Wuxing time, action, space reality we call existence. Most simple solution to permanently rid of bad hair days and conquering your Annoying God. Offering 7 universal principles of human conduct applicable in any life situation. How to approach clients to establish destiny change (5 technical approaches to existential therapy to ensure smooth fate).
