[See for distant support course if you cannot reach live class](#)

In addition to its vast contents and to the back of the Bazi workbook, you will find our self produced Chinese Luni-Solar calendar (in both Chinese characters and Western code for your convenience) running from 1900-2047. Class will learn 22 Chinese characters to the Heavenly Stems and the Earthly Branches, ensuring your *full autonomy* over the curriculum. This class will also teach you formula to build a complete Four Pillars of Destiny chart without at all referring to a Solar calendar.
