Distant Learning Support course – going beyond the manual

Receive extensive printed manual and Heluo's private support for 6 months.

After having always declined ongoing requests to obtain our class manuals outside actual class participation by those eager to study but not able to travel, we have recently decided to offer our class manuals up for distant learning support. While on the one hand still nothing beats transmission through formal training, and on the other hand we are not keen on sales - and by that not willing to just offer our manuals without the support option - the distant learning tract has been a rewarding path by which further spreading of traditional teachings can be ensured. You'll be studying your printed manual cover to cover in the privacy of your home for a period of 3 months, after which you will be going into lively exchange with Heluo for the duration of another 3 months, through which we will be building additional curriculum that will reach importantly beyond the manual, specifically tailored to your personal questions, your situation, your objectives. You will be sent the pertaining pdf on request. In order to be eligible to receive our printed materials and support, intake applies. Non-disclosure agreement in effect. Few seats only and distant learning student stop may be in effect.

Private mentor professional Yi consultants

Lively exchange on account of cosmology, Qi studies, applied technique.

You are a professional teacher or consultant in Oriental Metaphysical systems or you have been well on your way to become one. You have seen your share of programs, but you have been left with all these unsolved questions, unattended issues, confusion, unfinished notes. What are the odds that you will travel to sit in yet another seminar, perhaps only to once more return home empty handed. Will you be able to ask a Feng Shui question in a Four Pillars of Destiny class or while participating in a group session have your questions handled at any length. Are you in doubt you will have the courage at all to once more go back in class, or learn with a new teacher? Be only sure, that you're not the only one in this situation.

If you are like other professionals, you will not just have a name to lose, you may feel ultimately reluctant to ask questions in your group, be that a class setting, a yahoo group, a forum. This has been one of the growing obstacles in our today's metaphysical field and Heluo has mentored many such colleagues since 2001 in a secured environment. You may feel free to exchange anything you like in this private mentoring and we will do all we possibly can to help improve your skill, it is what we do, the entire day.

You may want to step into this venture where there will be no preset curriculum for you to just submit and follow. We will first gather all that you would wish to see covered, your questions, your objectives and we will go into a '7 lessons, 1 chat' adventure where 'lesson' means, you will receive solid teaching in authentic, extensive and illustrated Word documents.

"Devoted To Your Destiny In One Peaceful World"

Support our "Harvest for All" and "Education for All" fund

If an otherwise fertile land is not fully harvested, but you leave 30% of the crop, the land after seven years will sow itself"

- Free after Michio Kushi -

The Way of the Universe is in Yiconomy. All we'll ever do at Heluo Qi Explorations be based on this and the strong notion that besides nutrition, all on our planet should enjoy free access to information and education.

We initiated a Harvest for All fund, by which donations for our ad hoc services be devoted directly to the then eligible candidate in our fund. This will always be an individual or a small family and it is our way of bypassing those formal organizations that would handle equally 'formal' expenses.

Selected candidates must be from low pay regions who will need donations more than any of us put together. Your gift will be transferred directly from you to the appointed person, which means that Heluo Qi Explorations will not be involved - and does not receive any money - in this option. Through this we have a marvellous opportunity to have Qi flow between people in a most beautiful way.

If you feel you harvested from Heluo's support, here you can have another person join in that harvest. In the past your gifts have been of paramount help in finally supplying a gas heater for an elderly couple where there had been only cold water for over forty years in a minus 30-40 degrees Celcius situation, a real bed for a six year old boy who had been sleeping on the couch all of his life, you have transferred an amount that took care of winter supplies. A computer was provided, so that this eventually lead to a payed job and independence. We are immensely proud of all who helped take care of this. Ask details and give us your ad hoc question.

We are in the field of improving fate and destiny. That is what our Qi studies are all about, but we need to 'put our money where our mouth is'. The fund sets out to improve life and help improve people's destiny in a most direct and personal way. We made sure that gifts will actually make a difference and will only reach selected people. We would be grateful if you could notify us on anyone that you feel should be added to our list and that you know is in need of financial support. In order to establish and maintain our modern society we have been using up natural resources to the point of exhaustion. Grass grows and when you cut it, more grass comes. This is the Way of Dao. Cosmic economy says that if a land is fertile and we leave 30% of the harvest each time, the land will sow itself after seven years or so. This to us is Yiconomy and it is how we care to work and commit back to the field whatever we reap.

Measures taken by the Heluo Qi Explorations team in order to implement the principle of Yiconomy which we would like to inspire our colleagues by:

- Keep class fees well below accepted international standards.
- If need be, adapt class fee to Euro-Dollar tension in favor of the Dollar.
- The world is flat means, we have always adapted our class fees to GDP.
- Publish genuine chapters of class manuals as free www articles for all.
- Each 40 students is mentor or admit into class 1 person free of charge.
- Each 100 students, fully adopt 1 dire situation, e.g. mentor drug addict.

Some of Heluo's personal guidelines and recommendations for teachers and counselors since 1979:

- Study and teach to your utmost, make way once a better teacher walks in.
- 'Recognize the student' is equally important as 'recognize the teacher'.
- Teach to learn, not to earn, handling fate is worship, rather not work.
- Don't try to join the upper legions, be sure to stay a/with beginner(s).
- There may be the next president in any 'insignificant' person you passed by.
- Any beginner you may be teaching now, may be your future shifu.
- Able to swiftly change from teacher mode to student in any circumstance.
- Hold on to beginner's mind, never demonstrate you had arrived anywhere.
- Yi is not about just technique or skilled application, all is in empathy.
- Help establish autonomy and stay clear from the circuit Yi-student-system.
- Be thorough and transparant, never teach from red herring (decoy) or myth.
- Proceed where others quit, carry on where you yourself would quit.
- Practice self-reflection, never tell a lie, and provide the rod to fish.

The Art of Zheng Shen Dao

No matter what we study, teach or practice, all be based in Zheng Shen Dao, or the Art of True Spirit. We may change our studies or teaching from martial arts to Feng Shui, perhaps in future once again to chess, Zheng Shen Dao is what we transmit and be guided by.

Our mother organization is **Butao Awareness Center** 武道覺悟, umbrella to **Heluo Qi Explorations** 賀洛氣學, the latter established by our small team in 1997 to facilitate the professional trainings formulated this pdf.

As Heluo had started practising oriental metaphysics in 1973, he picked up on teaching the Korean art of Taekwondo 跆拳道 in 1979. It is from here that he then initiated Butao Awareness Center which was established in 1986 in order to provide a more profound platform to research, practice and teach the art of Zhèng Shén Dào 正神道 which would loosely translate to the **Art of True Shen** (Spirit) and which had been discovered and improved by Heluo since early childhood. At that time his Butao Taekwondo Academy started offering students a wide range of trainings in order to cater for development on the warrior-monk tract in such arts as Tai Ji Quan, Baguazhang, Xing Yi Quan, Aikido, Karatedo, Kendo, Jodo and Yoga. Besides facilitating sports training and participating in (inter)national tournaments, but from esoteric approach, Heluo had rather intensely engaged in offering individually training to people in dire situations since the age of 17 and he had been able to develop a unique style of existential coaching later baptized Course Guidance. Course Guidance, firmly rooted in Zhengshen Dao, formulates the parameters along which clients should be approached where matters of health and fate would involve, while Course Guidance be able to step in where otherwise therapeutic environments had failed, by which Course Guidance be a form of existential therapy dealing with drug addicts, grave mental problems such as psychosis, possession and suicide.

In order to facilitate such trainings and existential counseling, Heluo developed a unique protocol by which to understand the core of human behavior. Zhenshen Dao either aims for your autonomy or helps you guide back others to their autonomy, so that all can reap from their True Shen.

Qi studies such as Feng Shui, 9 Ki, Bazi are to merely facilitate such autonomy and we strongly believe that our elders should have shown us the crux of those already from early childhood. Now that they had not, we feel teachings should come without delay, students no longer taught from myth.

Heluo then passed on his martial arts center to an assistant in order to fully devote to the current Destiny Consultant program in 1997.

Rather than a particular training, the art of Zhèngshén Dào pertains to a protocol which may be universally implemented in any art, be this exoteric or esoteric, philosophical or practical, in metaphysics or science. Zhengshen provides a platform to understand all of the Heaven, Man and Earth realm by which humans exist as it proclaims behavior to be *physiologically* induced. Zhengshen Dao seeks to investigate into and lay bare what keeps you from your True Shen. Consequently, any of the Qi systems we practice and teach - be that still in our time as a martial arts dojo or currently from our practitioner program Destiny Consultant at Heluo Qi Explorations - would be either way inspired from Zhengshen Dao.

We never distinguished between beginners, intermediate or advanced as our student will be addressed as autonomous, coming under the Heaven-Man-Earth realm, our program aiming at his authenticity and working towards competence to 'survive, manifest and achieve' by offering didactical approach on account of time-action-space. Heluo has been training and counseling many professionals in the art of Zhengshen Dao, be this through Feng Shui, 9 Ki or Bazi, having educated many professionals to become Destiny Consultant through Course Guidance.
